THE BASQUE COUNTRY

Biarritz and the Basque Country inspire. Here, **tradition and innovation** blend to reinvent and transform 'Made In Basque' products, thanks to the millennia-old know-how of the Basque people and the dynamism of new creators. Today, the Basque Country showcases **a unique way of life.** Blessed land with its mountains, beaches, forests, and ocean, the Basque Country is an immense playground; a territory of tradition, culture, and history; a land where life is constantly celebrated. This is the strength of Biarritz. Its belonging and attachment to an exceptional and preserved territory partly explain the **excellence** of its position in the MICE market. More than just a promise, it's a momentum... to awaken and reveal the best in you. Biarritz is an excellent starting point to explore the Basque Country. It is lush and wooded, made up of gentle hills and mountains. It's also a heritage of traditional villages, legends, dances, and of course, gastronomy. The Basque Country is **an authentic destination** that has preserved its beauty and mysteries. Perhaps on your hikes, you'll have the chance to encounter the 'pottok,' the small horse of our mountains, wandering freely along the way. The Basque Country is **a secret yet generous territory.**

At the heart of the French Basque Country, at the crossroads of paths and cultures, Biarritz is a rare destination. With two airports (Biarritz and San Sebastián, 20 minutes away), just 1 hour from Paris by plane, and connected to major European cities and capitals. Thanks to the infrastructure of its international airport, directly accessible by highway and railway network, Biarritz establishes itself as the meeting point of all meetings.

DESTINATION BIARRITZ

A city museum enhanced by theatrical lighting, Biarritz blends references from yesterday with influences of tomorrow, thanks to the contemporary and visionary approach of French architects and urban planners Jean-Michel Wilmotte, François Lombard, and Pierre Bideau. Here, **in the heart of the city**, within historical buildings of Belle Epoque, Art Deco, or Art Nouveau style, **the three congress sites** are located just a few meters apart, saving valuable time. This is also why the exhibition space 'Halle d'Iraty' is situated between the train station and the airport. Biarritz is never short of life, no matter the time of year. The city organizes its economic development **into attractive and competitive clusters**: commerce, tourism, ocean, high-tech information and image technology, aerospace, and the surfing industry. This vitality is supported by **a relevant network of flexible and complementary infrastructures**, designed for organizing seminars, exhibitions, events, and congresses of all sizes. One of the many reasons that make Biarritz the European and international reference destination, including for high-level meetings. Combined with a chain of **technical and human competencies with high added value**, these facilities perfectly meet the requirements of the most demanding organizers.

Destination Biarritz is the Tourist Office and Congress Center of Biarritz, established in the form of an EPIC (Public Industrial and Commercial Establishment). In addition to managing the reception and information for visitors, our mission is to support and bring together tourism stakeholders, promote the assets of the destination in line with the development strategy.

In synergy with tourism partners, we work targetedly with professional networks in both leisure and business markets. Thus, we advocate for Biarritz to **host congresses, conventions, trade shows, seminars, conferences, or other events**, which are sources of economic benefits for the destination and a crucial axis in **reducing the seasonality** of tourism activity. We also handle the **marketing of the 4 congress centers, exhibition halls, and performance venues** in Biarritz, as well as the hosting of events at various sites.

OUR COMMITMENTS

Destination Biarritz has decided to mobilize for Sustainable Tourism and is committed to implementing a **tourism strategy that takes into account the three pillars of sustainable development**: economic, environmental, and social.

The Tourist Office and Congress Center obtained in April 2022 the **"ISO 20121 Certification: Responsible Management Systems applied to Event Activities"** for the management and marketing of the four congress and exhibition sites.

We involve private, public, and associative actors in this approach to offer events without plastics, fight against waste, and promote local products from short supply chains.

The teams at Destination Biarritz guide you in choosing committed local service providers (hotels, caterers, restaurants, activities...) and advise you on reducing the impact of your event. Additionally, the new soft mobility plan (free 100% electric shuttles, a new ecological intermunicipal Tram'Bus network, a pioneer in Europe) allows for transportation with minimal environmental impact.

Thanks to these numerous actions, the city of Biarritz obtained the **Sustainable Innovative Destination label** in February 2023.

OENOLOGY

Address : 5 Bis Chemin des Blocs, Ciboure

Egiategia

Description: Egiategia is a pioneer in underwater winemaking. Initially, it was a wild challenge, a charming impertinence tinged with poetry: to vinify underwater in the bay of Saint-Jean-de-Luz. Then it became evident. It all starts with the search for grapes with unique qualities to meet the requirements of this very particular method, followed by collaborations with winemakers who uphold virtuous values.

Protected by the Artha dike, the tanks containing the wine are submerged at a depth of 15 meters. This is where the secondary fermentation in tank begins. Winter storms, tides, and long west-north swells create regular stirring and constant pressure. This doubly patented method imparts unique and surprising aromas to the wines. A beautiful experience that will take you on a journey.

Various tours are available throughout the year to immerse you in our world.

Le Petit Train de Biarritz

Description : Discover the splendid coast of Biarritz with the help of our new electric mini train; you'll feel like you're traveling on a replica of the 1850s railway. The foresight of Napoleon III and his wife, Empress Eugénie, was a determining factor for the future of Biarritz at that time. From 1825, the beautiful beaches of Biarritz were developed to accommodate sea bathers. Illustrious French and foreign families stayed and settled in Biarritz: Queen Victoria, Kings Alphonse XIII, Edward VII, and VIII... Many castles and beautiful villas still bear witness to this prestigious past. Don't miss the guided tour of approximately 30 minutes, which will tell you more about Biarritz, the "Queen of Beaches and Beach of Kings."

Maya Gilles

Description : For the past 2 years, I have embarked on a journey as a tour guide and lecturer for primarily French and English-speaking groups, mainly in the Basque Country but also abroad. I mainly work in the business tourism sector with various receptive agencies.

Before venturing out on my own, I worked in the sales department of the Hôtel du Palais for 9 years and in the Groups department of Thomas Cook for 7 years. Thus, I am well acquainted with the duties of a project manager. It is to be more hands-on and in direct contact with the public that I embarked on this new adventure.

I love people, traveling, adventures, the Basque Country, and managing the unexpected. Being naturally sociable, attentive, and proactive, I feel completely at ease and fulfilled by this new activity.
